## Bernie Glas From Adam Medical Sales Look Here

**KEVIN JIANG**

**Bernie Glas From Adam Medical Sales Look Here**

April 06, 2017 05:19

In 2013, Bernie Glas sent me email about selling me tubes and used CT scanners. Because we had some business before, I trusted him and sent him \$117000.00 for these tubes and systems. However, he did not have those things and did not send the money back to me.

From then on, I kept calling him to pay me the money. After 4 years past, he still owed me \$27000.00. Now I can't reach him via email or phone.

Actually last year, I met the same problem. I can't reach him via phone or email. And fortunately with dotmed's help, I complained him here about his fraud. He answered me and sent me \$10000.00 and gave me promise that he would send the remaining balance to me soon. But till now, he hadn't send me anything.

Now I had to ask you to do me a favor. Let Bernie Glas pay me the remaining balance, \$27000.00.

Thank you.

Kevin from Mediparts Inc.

## Bernie Glas, Adam Medical

**Carlos Lopez**

**Bernie Glas, Adam Medical**

May 23, 2018 03:52

Bernie Glas is a pioneer in our business and a person I have known for 30 years. Since early in 2017, I have waited patiently for a promised refund of \$1700.00. Some have posted and I would imagine several others are waiting for funds which will probably never come.

To soften the blow, I offered to accept payments if the cash flow is poor as he always says it is. Nothing seems to work.

Maybe being removed from Dotmed will be a motivation!!

I hope the next time I post it will be that the debt has been addressed he has regained some self respect.

## Are you proud of your marketing?

May 09, 2018  
by [Philip F. Jacobus](#), President

*DOTmed 100 certificates belonging to Josh Glas*

**As a young man and throughout life, I was always taught by my parents and others not to brag. Nobody likes a bragger and it has been my experience that usually people who brag are also exaggerators.**

Even now after almost 65 years, I try to be humble and not take myself too seriously. Nevertheless, I am proud of DOTmed and I am proud of our growth.

There is a fine line between bragging and putting your best foot forward. I think DOTmed has cracked the code with its rating system.

I was really gratified to receive an email from Josh Glas, showing me pictures of his DOTmed 100 certificates from the last five years.

Whether it be on DOTmed, or Yelp, or Google, or TripAdvisor, or anywhere else, it's clear that one of the best ways to brag or to promote yourself, is to have positive ratings. Positive ratings show that the people with whom you do business have confidence in you and like you.

Obviously, there are a lot of people who like Josh Glas because he has been one of the Top 100 parts vendors, for so many years.

If you call Josh, he will speak with confidence, but not brag. He knows how to promote himself and still be a gentleman.

So it is my advice that you invite your clients, whomever they may be, to speak well of you, and do so in public.

## Feedback Received

### **NEW!** More weight for healthcare provider ratings

Our users asked us to change the DOTmed 5-Star Rating System and give more weight to ratings from healthcare providers because, as end-users, they are in the best position to evaluate a dealer's products and services. Therefore, if you work for a healthcare facility, your ratings now have twice the value of dealer-to-dealer ratings. Please rate every company you do business with.

## GE to spin off healthcare business as separate enterprise

June 26, 2018

by [John R. Fischer](#), Staff Reporter

**General Electric is spinning off its healthcare division as a separate enterprise in an effort to focus its attention on its power, aviation and renewable energy businesses.**

The multinational conglomerate announced the news Tuesday as the final piece in a string of spinoffs it has undertaken to cut debt, simplify its structure, and raise cash, including the spinoff of its train manufacturing business last month and the \$3.3 billion sale of its distributed power division. It also will sell off shares of its ownership in oil services company Baker Hughes over the next two to three years.

"Today marks an important milestone in GE's history," CEO John Flannery said in a statement. "We are aggressively driving forward as an aviation, power and renewable energy company – three highly complementary businesses poised for future growth. We will continue to improve our operations and balance sheet as we make GE simpler and stronger."

The news follows a difficult year for the company, which has experienced a loss
